Notes to the Financial Statements

ASCF Private Fund

For the 6 months ended 31 December 2023

1. Statement of Significant Accounting Policies

The Directors have determined that the company is not a reporting entity and accordingly, this financial report is a special purpose report prepared for the sole purpose of distributing a financial report to members and must not be used for any other purpose. The Directors have determined that the accounting policies adopted are appropriate to meet the needs of the members.

The financial report has been prepared on an accrual basis and under the historical cost convention, except for certain assets, which, as noted, have been written down to fair value as a result of impairment. Unless otherwise stated, the accounting policies adopted are consistent with those of the prior year.

The accounting policies that have been adopted in the preparation of the statements are as follows:

Income Tax

The income tax expense for the year comprises current income tax expense. The company does not apply deferred tax. Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at 31 December 2023. Current tax liabilities are therefore measured at the amounts expected to be paid to the relevant taxation authority.

Inventories

Inventories are carried at the lower of cost or net realisable value. Cost is based on the first-in, first out method and includes expenditure incurred in acquiring the inventories and bringing them to the existing condition and location.

Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the company that remain unpaid at 31 December 2023. Trade payables are recognised at their transaction price. They are subject to normal credit terms and do not bear interest.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Revenue Recognition

Revenue from the sale of goods is recognised upon the delivery of goods to customers.

Revenue from the rendering of services is recognised upon the delivery of the services to customers.

Revenue from commissions is recognised upon delivery of services to customers.

Revenue from interest is recognised using the effective interest rate method.

Revenue from dividends is recognised when the entity has a right to receive the dividend.

All revenue is stated net of the amount of goods and services tax (GST).

Goods and Services Tax

Transactions are recognised net of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the balance sheet.
